01 WHERE WE STARTED

# What we built it around.

01

## Specializing in Tree Removals, Forest Thinning, and Brush Removal.

From the top of your homepage. Option 1 sets it in your forest green, beside your own photo of the crew at the tall pines, split into three panels that open as the page loads.

02

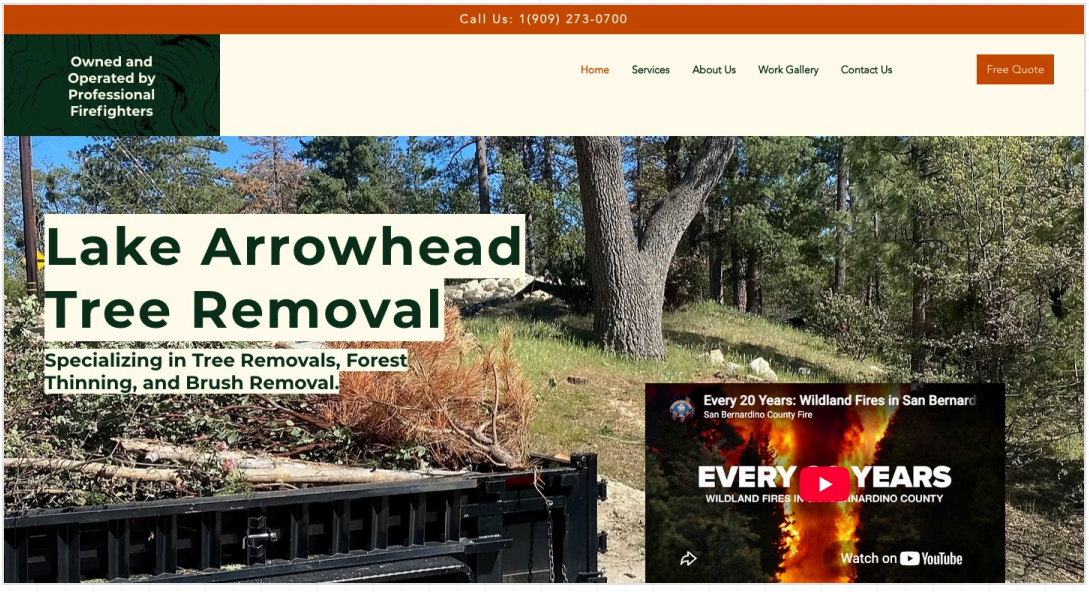

## Their team was professional, efficient, and left my property looking clean and tidy.

Mike Lowry's review from your homepage. Option 2 is the bold one: your trailer of pine boughs in low sun, with his words on a load ticket.

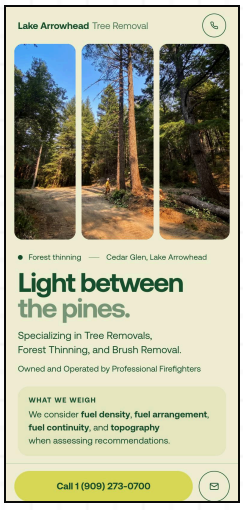

03

## Our team is passionate about preserving the natural beauty of our community while ensuring the safety of our clients.

From your About Us page. Option 3 makes it the headline, quiet and spacious, above your own photo of the granite hillside.

03 HOW IT GOES

06 QUESTIONS

# The usual questions.

01

## Will moving hurt my Google ranking?

We move it carefully. Every page address on your current site keeps working or forwards to its new page, and your titles and business details carry over, so nothing Google already knows about breaks. The new site is fast and built for phones first, which Google rewards. We don't promise rankings.

02

## Is it secure?

Yes. It's built lean and tested on a preview before anything goes live, and your quote form keeps sending to the same inbox it does now.

03

## Who owns it?

You do. The design and every file sit in your name. Your domain stays with you; nothing of ours renews unless you ask.

04

## How do I make changes?

Text or email me the change and it's live the next business day. The first 30 days are free. After that, unlimited changes come with any monthly plan, from $250 a month, cancel anytime.

05

## When do I pay?

Half ($1,250) when you say go, the rest ($1,250) when the site is live. You've seen the homepage before paying anything.

06

## What if the Zone 0 rules change?

Then the site changes with it. Service pages are easy to update, and if the state's rules shift before launch, I'll rewrite those pages as part of the build.
